25X1

1. The following buildings are marked on the attached copy of a map section of the Wladyslawowo (N54-48 E18-25) area:
  - a. Fish stores and processing plant.
  - b. CPN (Central Administration of the Oil Industry) fuel store; fishing cutters refuel here.
  - c. Excavated site, near which three small metal fuel tanks are visible on the surface, as yet not assembled. Each tank is 8 to 10 m. long with a diameter of 1½ to 2 m.
2. Due to the steadily increasing restriction regarding entry to the Hel fishing port, part of the fishing craft repair workshops have been transferred from the port of Hel to the port of Wladyslawowo and are now being reassembled. (See point "a" on map). Here also a new slipway is under construction for fishing craft undergoing repairs.
3. According to local fishermen, the former CPN bunkering station was too small, so that now the construction of a larger station has been started. The old station is still in commission and there is no talk of it closing down in the future.
